

## What CEU microcredentials are there?

CEU microcredentials are structured within an ecosystem that includes all the competencies that can be acquired and recognized during undergraduate and postgraduate studies. The microcredentials are divided into: Las microcredenciales se dividen en:

- **21<sup>st</sup>-century skills**, divided into six areas, and applicable to all bachelor's degree programmes.
- **Learning pathways composed of microcredentials and embedded into bachelor's degree programmes:** Oral Communication for Law and Political Science students at CEU UCH's Alfara del Patriarca Campus.

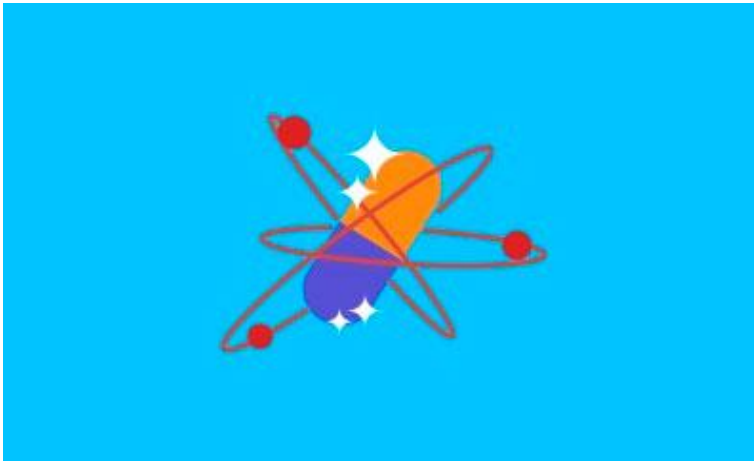

## 21st Century Skills

### **Ethical commitment**

Competencies concerning social awareness, civic responsibility and sensitivity to the environment.

### **Research**

These competencies concern the application of the scientific method in a specific area, contributing to the progress of society.

### **Instrumental competencies**

These are value-added competencies concerning the effective use of information resources, digital skills, and the ability to speak foreign languages.

### **Internationalization**

These are the competencies needed to operate effectively in today's globalized workplace.

### **Soft Skills**

These personal skills go beyond mere knowledge and information: they concern the knowhow which all top professionals possess.

### **Being Professional (Employability and Social Skills for the Workplace)**

These competencies enable you to operate in a range of different organizational settings and to hit the ground running in employment.
